PACIFIC BRICK PAVERS

GUIDE TO BRICK PAVED DRIVEWAY

- Pavers are laid on a sand bed over a 75mm concrete base, thus blending the strength of concrete with the natural beauty of pavers
 - Stabilised jointing sand is swept into the joints, locking in from day one
 - Overall thickness 150mm
 - Won't sink, crack or deviate
- Standard selections include the Austral Masonry Camino 50 Range, the Baines Easy Pave Range, Austral Broadway 150 Range, Adbri, Haven Brick and Haven Slab Ranges.
